Answer: You can try to find internship from these glints, internjobs.com, experience by simplicity, internsg, glassdoor, hiredly, LinkedIn, wayup, Asia Internship program, gradsingapore.

FAQ : Frequently Asked Questions

Question: What are the admissions requirements?
Answer: The academic entry requirement is high school diploma or equivalent and IELTS 5 or equivalent.

Question: What if don't have any recent IELTS scores?
Answer: Students can take an English Placement Test (free-of-charge) once they arrive at the university. If a student's English level is below the minimum requirement of IELTS 5, the student would need to take some English subjects before starting the program.
Please see the section English Placement Test for more details.

Question: How long does the admissions process take?
Answer: Once we have the completed application file, including all required materials, it usually takes a few days to a week for application processing, review, and for your Letter of Acceptance to be sent by email. You will then be required to pay a non-refundable partial payment 30% of tuition fees of the semester before your visa supporting document is granted. The remaining 70% of the fees are paid once you arrived at the university. Please note, the partial payment may be changed based on your country of origin.

Question: Where do I get my visa and how long does it take to have it?
Answer: Once we received the non-refundable partial payment 30% of tuition fees, we will process your visa supporting document and send to you via email or postal. Then you can lodge your visa application at nearest Thai Embassy or consulate in your country, which could take at least 1 week to 1 month, depending on the visa processing requirement of the Thai embassy or consulate in your country, which you have provided to us during your online application.

Question: What documents must I present to get my visa?
Answer: We will provide you a scan copy of the visa issuance letter sent to your email and these documents are also sent by EMS to the postal address you specified on the online application form. Once you received the original visa issuance letter, all these documents must be submitted to the Thai embassy or consulate for you to be granted the visa.

Question: What if I studied before from another college or university?
Answer: If you have successfully completed units or subjects from another institution, either in Thailand or overseas or from a different degree at Rangsit University, you may apply for credit transfer that may reduce the time you take to complete your current degree.
The student is allowed to transfer a maximum of 75% of the total credits for the current program he is studying. The subjects eligible for credit transfer must have an exact equivalent credit value or higher, and a completed grade of C or above.

Please see the section Credit Transfer for more details.

Question: Do you require SAT/ACT scores?
Answer: The university does not require SAT/ACT scores to be admitted to the international programs.

Question: Do you require letters of reference?
Answer: We do not require letters of reference and do not use them as part of the admissions process.

Question: How early should a student apply? And how many intakes are there in Rangsit international college.
Answer You should allow at least 2 months before semester starts. Applying early is important. There are 3 intakes for Rangsit international college. Our intakes are ;
Summer (June-July)
1st Semester (August to December)
2nd Semester (January to May)
Applications are accepted on a rolling basis and normally take at least 2 to 4 weeks until the student has received the visa.

Question: What is the next step once I receive my visa?
Answer: Student can now book their air ticket to fly to Thailand and start booking their accommodation and airport pick-up from the web site.

Question: Are students required to live on campus?
Answer: Students are not required to live on campus. Initially, students are booked to one of the network of apartment located off-campus that the International Service Center has reserved for them. These accommodations are in front or beside the university and are easily accessible by foot.

Question: Can I stay inside the campus dormitory?
Answer: Because of the limited number of rooms of on campus accommodation, reservation must be made at least 2 months in advance. Student can first stay at the off-campus dormitory provided and once they have settled in, they can reserve the on campus accommodation.

Question: How do students apply for scholarships?
Answer: To qualify for scholarships, students must first complete the online scholarship application form for the appropriate intake and academic year and attach relevant documents required. Once we received the application, we will notify you of the schedule of Skype interview which is at the specified local date and time.

Question: How do you determine scholarship eligibility?

Answer: Scholarship applicants are reviewed and interviewed by the scholarship committee. Factors taken into consideration include, but are not limited to: are grade point average (GPA), coursework, test scores, extracurricular activities, and community involvement.

Question: How do I contact the university if I need more information?
Answer: Students can email rsuip@rsu.ac.th, call +662 997 2200 ext. 4012, 4019, or connect to social media like Facebook, Line, Instagram and Twitter, which are all available on this web site.

Question: What are the emergency protocols while we live in Thailand.
Answer: Emergency Protocol
An emergency is unpredictable. The best approach to avoid accident or emergency is taking precaution when you travel, using public transports and how you exposing yourself.

Be cautious!

Do not use motor-bike if you are not familiar with roading behavior in Thailand

Do not expose yourself in vulnerable areas eg. walking at night alone

Do not carry a large amount of cash

Do not insult other people such as pointing a finger to the face, staring or any other offended behavior

Use common sense in public or in a crowded area

Please report to ISS office when you travel for holidays

For travel report form: https://form.jotform.me/rsuvie/tr

In the case of an emergency, you should follow a protocol as follows

Contact your friend or advising teacher for assistance

Report to Faculty staff

Contact the office of ISC (Visa and Insurance Office – building 11-2nd floor)

To contact authorities for help. Dial 191 for Police

Dial 1155 for Tourist Police (www.thailandtouristpolice.com) particularly in tourist areas

Dial 1669 for an ambulance or medical emergency

Question: How long is the International Business program?
Answer: You need to study 4 years for international business program.

Question: What are career opportunities after finishing the International Business(IB) program?
Answer: There continues to be a huge demand for graduates in all areas of International Business and employment prospects are excellent in the fields of government and privately-owned companies, international organizations and entrepreneurship.

Question: How many credits do we need for the International Business Program?
Answer: total Credit requirements - 132 credits for international business program with course structure – this is the credits of international business GENERAL EDUCATION COURSES (30 CREDITS), CORE COURSES (96 CREDITS) and Free elective (6 credits)

Question: Who is head of department in the International Business (IB) program?
Answer: Current head of department of international business is Ussanee Malisuwan.email: ussaneem@yahoo.com
For details about IB program, please check this is the website of International business program https://www.rsuip.org/programmes/undergraduate/international-business/

Question: What are core courses in the International Business(IB) program?
Answer: Professional Foundation Courses(36 credits), Major courses (60 credits) in which we have required major courses(36 credits) and elective major courses(24 credits). We also have

free elective (6 credits). For more course details, please go to
https://www.rsuip.org/programmes/undergraduate/international-business/ website- course
structure.

Communication Arts
Website: https://www.rsuip.org/programmes/undergraduate/communication-arts/

Question: What degree will you get from the Communication Arts(Comm Arts) program?
Answer: you will get Bachelor of Communication Arts or B.Comm Arts (International Program)

Question: What are course fees for the Communication Arts (Comm Arts) program?
Answer: Tuition fee per semester for communication arts program is 56,000 - 74,000, and for
more details go to https://www.rsuip.org/programmes/undergraduate/communication-arts/

Question: How long is the Communication Arts program?
Answer: you need to study 4 years to complete communication arts program.

Question: WHY STUDY IN COMMUNICATION ARTS program? What is the purpose?
Answer:
The reasons and purpose that you should study communication arts program at RIC
- Holistic knowledge of communication
- Modern and uniquely designed program to enhance career opportunities
- World-leading academics and highly experienced lecturers
- Multidisciplinary education
- Third language proficiency
- Local and/or abroad internship program
- International experience
- Outstanding mix of friends from all over the world

Question: What are CAREER OPPORTUNITIES in the Communication Arts program?
Answer: There continues to be a huge demand for graduate in all areas of Comm Arts, and
employment prospects are excellent, which include:
- Account Executive
- Public Relations Practitioner
- Copywriter
- Columnist
- News Editor
- Event Organizer
- Content Creator
- Marketing Communications
- Writer
- Creative
- Columnist
- Blogger

Question: What are ACADEMIC ENTRY REQUIREMENTS for Comm Arts?
Answer: Completed Upper Secondary School (M.6 Certificate) or its equivalent as recognized
by the Thai Ministry of Education or High School Grade 12 (US System) or Passed 5 subjects of

IGCSE O-Level and 3 subjects of A/AS Subjects with Grade C or above (British System) or Completed International Baccalaureate (IB) Diploma

Question: What is COURSE DESCRIPTION/PURPOSE of Communication Arts(Comm Arts) program?
Answer: The Bachelor of Communication Arts is a program that studies the areas of advertising, journalism and public relations, creating a new generation of marketing communicators.
The program examines the many different forms of communication, including verbal, non-verbal and written, as well as the various technologies through which information is transmitted. The program also emphasizes applied skills relevant to work within the communication industries.
The Bachelor of Communication Arts gives students a flexible structure with a broad range of disciplines to choose from, and is an appropriate preparation for a wide range of career opportunities.

Question: what are career opportunities /EMPLOYMENT OUTCOMES?
Answer: Graduates of the program are able to work in advertising management, public relations, media planning, news reporting and editing, commentating, TV and radio.

Question: Who is head of department for the Comm Arts program?
Answer: the head of department of communication arts program is Assist. Prof. Dr. Duangthip Charoenruk.email: duangtipc@hotmail.com

Question: What is the credit requirement for Comm Arts?
Answer: We need 126 credits to finish the Comm Arts program. General Education (30 credits) , core courses (90 credits) and free elective (6 credits).

Question: What is the course structure for Comm Arts?
Answer: Please check https://www.rsuip.org/programmes/undergraduate/communication-arts/

TOURISM, HOSPITALITY AND SPORTS
Website: https://www.rsuip.org/programmes/undergraduate/its/

Question: What degree can I get from the tourism, hospitality and sports program?
Answer:you will get Bachelor of Arts (Tourism, Hospitality and Sports)

Question: How long is the tourism, hospitality and sports program?
Answer: you need to study 4 years for the tourism, hospitality and sports program

Question: How much is the course fee for the tourism, hospitality and sports program?
Answer: the program fees for the tourism, hospitality and sports program is 56,000 - 65,000 per semester. For more details, please visit https://www.rsuip.org/programmes/undergraduate/its/

Question: What is the course description/purpose of the tourism, hospitality and sports program?
Answer: The objective of the program is to produce students with skills and education in the operational management of hospitality and tourism organizations with a particular focus on the management of food and beverages, front office systems and tourism processes.

Question: What are career opportunities/ employment outcomes of the tourism, hospitality and sports program?
Answer: Graduates of the program are highly employable across a range of organizations, not only within hospitality and tourism. Excellent career opportunities exist in operational management roles, hotel management, tourism & hospitality, international resorts and tourism consultancy.

Question: Who is department head of the tourism, hospitality and sports program?
Answer: the head of department of the tourism, hospitality and sports program is A.Nicha Chavalit, email: nicha.c@rsu.ac.th

Question: How many credits do we need to finish the tourism, hospitality and sports program?
Answer: We need 136 credits to finish.

Question: What is the course structure for the tourism, hospitality and sports program?
Answer: General Education(GE) - 30 credits, Core Courses - 97 credits, Free Elective - 9 credits. For more details - https://www.rsuip.org/programmes/undergraduate/its/

Information and Communication Technology(ICT)
Website: https://www.rsuip.org/programmes/undergraduate/ict/

Question: What degree will you get from theInformation and Communication Technology program?
Answer: Full Title -Bachelor of Science (Information and Communication Technology)
Abbreviated Title- B.Sc. ICT (Information and Communication Technology)

Question: Why do you study in theInformation and Communication Technology(ICT) program?
Answer: why you should study ict program at RIC
- 1. World class teaching staff with an innovative learning environment.
- 2. Sound digital transformation coping with dynamic society.
- (Internet of Things, Big Data, Artificial Intelligence, etc.)
- 3. Start-up initiatives and hand-on experience in laying groundwork for the coming future.
- 4. Exclusive business collaborations with top leading IT companies (Microsoft, Google, Apple, Oracle, Cisco, Western Digital and etc.)
- 5. Active international internships and worldwide student exchange programs (Finland, Sweden, China, Australia, Singapore, Japan, Indonesia and etc.)
- 6. 3+1 Program with
- > Murdoch University (Computer Science)
- > University of Canberra (International Business)
- > Yunnan University of Finance and Economics (Business Administration)
- 7. Free transfer up to 90/126 credits for FREE
- > HND/HNC and
- > Diploma from related field

Question: How many years to finish the ICT program?
Answer: you need to study 4 years for ICT Program

Question: How much is the course fee for the ICT program?
Answer:the ICT program fees can cost from 56,000 - 65,000 per semester. For more details, please visit https://www.rsuip.org/programmes/undergraduate/ict/

Question: What is COURSE DESCRIPTION/PURPOSE for ICT program?
Answer: The Information and Communication Technology (ICT) program challenges the minds of students by teaching them how to find, process, assimilate and use the vast amounts of information that exists in today's globalized world.

Question: What are career opportunities / employment outcomes after finishing the ICT program?
Answer: There continues to be a huge demand for graduates in all areas of ICT and employment prospects commonly include virtual reality and game development, computer graphics programming, web development and programming, system analysis and engineering, network administration, and robotics engineering.

Question: Who is ICT department head?
Answer: the head of department of ICT Program is Assoc. Prof. Dr. Todsanai Chumwatana, email: todsanai.c@rsu.ac.th
Line ID : todsanai

Question: Who is ICT department secretary?
Answer: the secretary of ICT program is Miss Kanokphan Sangngam P'Aor (Secretary), email: kanokphan.s@rsu.ac.th

Question: How many credits do we need to finish Information and Communication Technology program?
Answer: ICT Program need to study for 120 credits

Question: What is the course structure for the ICT program?
Answer: General Education - 30 credits, specialized core courses- 84 credits, free elective - 6 credits. For more details, please check https://www.rsuip.org/programmes/undergraduate/ict/

International Relations and Development(IRD)
Website: https://www.rsuip.org/programmes/undergraduate/ird/

Question: What degree will you get from the International Relations and Development program?
Answer: Bachelor of Arts (International Relations and Development)

Question: How long is the IRD program?
Answer: you need to study 4 years (Regular), 4.5 years (Double Degree: IRD + Institute of Political Science, or IRD + Institute of Economics) for International Relations and Development(IRD) program.
Question: How much is the course fee for the IRD program?
Answer: International Relations and Development(IRD) program fees is from 56,000 - 74,000 per semester. For more details please check
https://www.rsuip.org/programmes/undergraduate/ird/

Question: What is the course description/purpose of the IRD program?

Answer: The International Relations and Development (IRD) program studies the interconnected concepts of social, political, economic, cultural and environmental systems, and a global perspective in the analysis of growth and development.

Question: What are career opportunities/ employment outcomes of the IRD program?
Answer: Graduates of the program can work in international organizations, multinational firms, as well as in government and non-governmental organizations.

Question: Who is the head of the department of the IRD program?
Answer:the head of department of International Relations and Development(IRD) program Is Dr. Sasiphattra Siriwato, email: sasiphattra.s@rsu.ac.th Line: https://line.me/R/ti/g/4URalwwZ48

Civil Engineering
Website: https://www.rsuip.org/programmes/undergraduate/civil-engineering/

Question: What degree will we get from civil engineering program?
Answer: Bachelor of Engineering(Civil Engineering)

Question: How long do we need to finish the civil engineering program?
Answer: you need to study 4 years for civil engineering program.

Question: How much is the course fee for the civil engineering program?
Answer:The program fees for civil engineering program is from 68,000 - 81,000 Bahts per semester For more details please check https://www.rsuip.org/programmes/undergraduate/civil-engineering/

Question: What is the course description/ purpose of the civil engineering program?
Answer: The Bachelor of Engineering (Civil Engineering) is a program that has been approved and accredited by the Council of Engineers of Thailand (COE). The curriculum aims to produce graduates who are capable of working in the areas of surveying, design, construction management and infrastructure planning. It also covers areas like structural engineering, soil and foundation engineering, water resource engineering, and construction management engineering with sufficient background for graduates to carry on further research and higher studies.

Question: What are the employment outcomes/ career opportunities after finishing civil engineering program?
Answer: After completion of the program, graduates typically take the Professional Licensing Examination to become professional engineers. Excellent career prospects include design, project management, and research and development engineers in both the private and public sectors. Civil engineers are the dominant drivers in the development of infrastructure, and resource and environmental management of the country and its surrounding region.

Question: Who is department head of civil engineering?
Answer:the head of department of civil engineering program is A.Supattana Nirukkanaporn , email : wisit@rsu.ac.th

Question: How many credits do we need to finish the civil engineering program?
Answer: there are 150 credits in civil engineering program they are Course structure ⇒ general education(GE) - 30 credits, Core courses(Area courses) - 114 credits, free elective - 6 credits. For more details please visit https://www.rsuip.org/programmes/undergraduate/civil-engineering/

DIGITAL INNOVATION
Website for digital innovation is
https://www.rsuip.org/https/wwwrsuiporg/programmes/undergraduate/digital-innovation/

Question: what degree will you get from Digital innovation?
Answer: Bachelor of Science (Digital Innovation)

DISTINCTIVE FEATURES OF DIGITAL INNOVATION PROGRAM, the good point of DIGITAL INNOVATION and why should you study digital innovation program at RIC is Tailored Curriculum: This program is designed around Artificial Intelligence (AI), addressing the current industry's pressing demands and future trends.Practical Emphasis: Theoretical knowledge is complemented by hands-on experiences, enabling students to familiarize themselves with real-world AI tools and challenges.Diverse Skill Acquisition: Beyond AI, students gain proficiency in Cyber Security, Internet of things (IoT), Fullstack Development, and UX/UI Design, ensuring a well-rounded digital education.Efficient Duration: The three-year structure ensures a comprehensive education in a condensed timeframe, allowing graduates to embark on their careers sooner.

Question: How many years do I need to study for digital innovation?
Answer: You need to study 2.5 years for digital innovation program.

Question: How many semesters does Rangsit University open?
Answer: Rangsit university opens June, August and January Semesters

Question: How many semesters does Rangsit International College open?
Answer: Rangsit International College opens June, August and January Semesters

English requirements for digital innovation program?
To study Digital innovation program you need to have IELTS 5.5 or equivalent or passed the Rangsit University English Language Proficiency Test for English requirement.

How much for Digital Innovation Program?
Digital Innovation program fees is 574,600 Baht.

Course description for digital innovation program is Rangsit University's Digital Innovation Bachelor Program offers a comprehensive three-year journey into the world of digital technology, with a special emphasis on Artificial Intelligence (AI). Beginning with foundational concepts of AI and programming,
the curriculum progresses to advanced data analytics and AI tool applications, culminating in real-world digital industry applications. Additionally, the program integrates essential modules on Cyber Security, Internet of things (IoT), Fullstack Development, and UX/UI Design.

POTENTIAL CAREER PATHS FOR GRADUATES from digital innovation program:
AI Specialist: Graduates can venture into roles centered on AI development, research, or consultancy across various sectors.Data Analyst: Armed with data analytics skills, graduates can interpret and predict trends, providing valuable insights for businesses.Cyber Security Expert: In an era of increasing digital threats, there's a significant demand for professionals adept in safeguarding digital infrastructures.IoT Developer/Engineer: With the interconnected nature of modern devices, graduates can design, develop, and implement smart solutions in the rapidly growing field of the Internet of Things.Fullstack Developer: Graduates can design, develop, and maintain holistic web solutions, catering to both front-end and back-end requirements.UX/UI Designer: With a focus on user-centric design, graduates can shape digital interfaces that offer intuitive user experiences.Digital Consultant: Leveraging their comprehensive digital knowledge, graduates can advise businesses on optimizing their digital strategies and operations.

The head of department of Digital innovation program is Name Asst. Prof. Dr. Karn Yongsiriwit. The email address of Asst. Prof. Dr. Karn Yongsiriwit is karn.y@rsu.ac.th.

COMPUTER SCIENCE

If you study computer science program at RIC you will get Bachelor of Science (Computer Science).

Why you should study computer science program at RIC
Cutting-Edge Curriculum: A program that stays up-to-date with the latest trends and technologies in computer science, such as artificial intelligence, machine learning, blockchain, image processing, and computer vision. Offers elective courses or specializations in emerging fields to prepare students for the future. State-of-the-Art Facilities: Access to cutting-edge computer labs, software, and hardware to facilitate hands-on learning and research. Practical Experience: Hands-on experience is essential in this program. Students often complete coding projects, internships, or co-op placements to apply their knowledge in real-world scenarios. Culminates in a capstone or senior project where students apply their skills to solve real-world problems, often in collaboration with industry partners.

How long you need to study for computer science program?
You need to study 3 years for computer science program at RIC.

In rangsit international college and rangsit university you can apply and study three semesters. June, August and January Semesters

To study computer science at RIC you need to have English requirement IELTS 5.5 or equivalent or passed the Rangsit University English Language Proficiency Test

The course fees for computer science program is 545,700 Baht

The course description of computer science is The Computer Science program at Rangsit University is designed to equip students with the knowledge and skills needed to thrive in the

rapidly evolving field of digital technology. It combines theoretical foundations with practical applications, preparing graduates for careers in a wide range of industries, from software development and data science to big data analytics and artificial intelligence. Furthermore, programs offer specializations that allow students to delve deeper into specific areas of computer science, such as: machine learning, data mining, web and mobile app development, and Internet of Things (IOT).

POTENTIAL CAREER PATHS FOR GRADUATES for Computer Science Program:
Software Developer/Engineer:
• Design, develop, and test software applications and systems.
• Specialize in areas like web development, mobile app development, or game development.
 Data Scientist/Analyst:
• Analyze large datasets to extract meaningful insights and inform business decisions.
• Build predictive models and machine learning algorithms.
Database Administrator (DBA):
• Design, implement, and manage databases to store and retrieve data efficiently.
• Ensure data integrity and security.
Artificial Intelligence (AI) Engineer/Researcher:
• Develop AI algorithms, neural networks, and machine learning models.
• Apply AI techniques to solve complex problems in various domains.
 DevOps Engineer:
• Streamline the software development and deployment process through automation and collaboration between development and IT operations teams.
• Use tools like Docker, Kubernetes, and Jenkins.
IT Project Manager:
• Lead and coordinate technology projects, ensuring they are completed on time and within budget.
• Oversee teams of developers and engineers.
Front-End or Back-End Web Developer:
• Front-End Developers work on creating the user interface and user experience of websites and web applications.
• Back-End Developers work on server-side logic and database interactions.
A Computer Science program at Rangsit University provides students with a versatile skill set and opens doors to a wide range of exciting career opportunities in our increasingly digital world. The program's blend of theory, practical experience, and adaptability
makes it a valuable choice for those interested in technology and innovation.

BIOMEDICAL ENGINEERING
Bachelor degree for Biomedical engineering program is Bachelor of Engineering (Biomedical Engineering).

Biomedical engineering program needs to study 4 years. Biomedical engineering program can study these three June, August and January Semesters but note that Students who enrolls in January semester will take time of studying for 4.5 years due to the program schedule
The program fees for Biomedical engineering program is 36,000 - 86,000 baht per semester and for the whole program is 640,000 baht.

The course description for biomedical engineering program is Biomedical Engineering is a multi-disciplinary program integrating engineering activities with basic medical knowledge of human physiology and an understanding of how it functions to assist healthcare providers in supplying better care and treatment to patients through the use of technology. During the 21st century, various advances in the field of medicine have been made, such as diagnostics devices, therapeutic devices, medical robotic, medical imaging, rehabilitation engineering, life support systems, biomaterials and tissue engineering. Advances in technology for the need to find cure, promote well-being and build healthy communities make Biomedical Engineers one of the most in-demand positions for the healthcare industries, which is one of the world's largest industrial sectors with a turnover approaching more than 20 billion USD per annum and an expanding rate of 9% per annum. To keep updated in healthcare services and solutions, advanced techniques like AI, machine learning and Big Data are integrated into this program.

Students are also encouraged to join overseas exchange programs, cooperative education and pursue the 4+1 track of the master degree program.

KNOWLEDGE, SKILLS AND COMPETENCIES OF GRADUATES of Biomedical Engineering program is
1. Have the basic skills in research and development for inventing new innovated devices and also become a business owner in the biomedical engineering industry.
2. Understand the principles of biomedical engineering in research and development, in production and quality control at government or private companies engaged in the manufacturing of medical devices.
3. Maintenance, repair, modification, and application of medical devices, and hospital engineering including assessments of medical technology.
4. Management of procurement, use, and distribution of consultancy projects in biomedical engineering works.
5. Pursue postgraduate studies in biomedical engineering and related fields
6. Having good ethics and morals, possessing academic competency in both national and international competitions and professional readiness

POTENTIAL CAREER PATHS FOR GRADUATES of biomedical engineering program is
Upon completion, graduates will be able to invent new biomedical instruments and select new technologies that are necessary and suitable in servicing, maintenance and application of medical devices. Potential career paths include
1. Biomedical engineer or clinical engineer in both public and private sector
2. Service engineer for medical devices
3. Product specialist for businesses involved in medical devices, both public and private sector
4. Specialists in research and development, in production or quality control department of government agencies or private companies engaged in the manufacture of medical devices
5. Sales executive in businesses engaged in medical devices
6. Set-up own business in the sale, service or consultation in the fields of medical equipment and biomedical engineering
7. Pursue higher education in Biomedical Engineering and related fields

FIELDS OF RESEARCH AND INNOVATION IN BIOMEDICAL ENGINEERING:

1. Biomedical Instrumentation
2. Medical Signal and Image Processing
3. Artificial Intelligence and Medical Robotics
4. Clinical Engineering
5. Biophysics and Medical Optics
6. Medical Material and Tissue Engineering
7. Smart Innovation and Rehabilitation for the Elderly
8. Information System for Medical Management
9. Metaverse in Healthcare and Medical Applications

COURSE DESCRIPTION/PURPOSE and why you should study biomedical engineering program at RIC

To produce Bachelor of Engineering in Biomedical Engineering with the following virtues and knowledge.

1. Have basic skills in research and development in the field of biomedical engineering for inventing new things as well as being a business owner in biomedical engineering.
2. Understand the principles of biomedical engineering in the field of research and development, production or quality control of government organizations or private companies engaged in the manufacture of medical devices.
3. Maintenance, repair, modification, and application of medical devices, hospital engineering including medical technology assessment.
4. Management of procurement, using, distribution and consultancy in biomedical engineering works.
5. Postgraduate studies in biomedical engineering or related fields.
6. Having good ethics and ethics, competency in both national and international competitions and professional readiness.

EMPLOYMENT OUTCOMES of biomedical engineering program is
1. A biomedical engineer or clinical engineer in biomedical engineering unit, both public and private sectors.
2. Service Engineer for medical device Service companies.
3. Product Specialist or Product Applicationist in businesses involved in medical devices, both public and private sectors.
4. Biomedical Engineers or Research and Development or Production or Quality Control Departments of government agencies or private companies engaged in the manufacture of medical devices.
5. Medical Device Sales Representative for Private Medical Device Business.
6. Carry out personal business in the sale, service or consultation in the field of medical equipment or biomedical engineering.
7. Higher education in Biomedical Engineering or related fields.

The head of department of Biomedical engineering program is Assist.Prof.Dr.Sani Boonyagul and the email address is sani@rsu.ac.th

The coordinator of Biomedical engineering program is Khun Pakit (Therng) and the email address is pakit.p@rsu.ac.th

The website for Biomedical Engineering program is
https://www.rsuip.org/programmes/undergraduate/bio-eng/

Civil Engineering Program
Website of civil engineering program is https://www.rsuip.org/programmes/undergraduate/civil-engineering/

Question: What degree will we get from civil engineering?
Answer: Bachelor of Engineering(Civil Engineering)

Question: How long do we need to finish the civil engineering program?
Answer: You need to study 4 years for civil engineering program.

Question: How much is the course fee for the civil engineering program?
Answer: 68,000 - 81,000 Bahts per semester For more details please check
https://www.rsuip.org/programmes/undergraduate/civil-engineering/

Question: What is the course description/ purpose of the civil engineering program and why should you study civil engineering at Rangsit International College?
Answer: The Bachelor of Engineering (Civil Engineering) is a program that has been approved and accredited by the Council of Engineers of Thailand (COE). The curriculum aims to produce graduates who are capable of working in the areas of surveying, design, construction management and infrastructure planning. It also covers areas like structural engineering, soil and foundation engineering, water resource engineering, and construction management engineering with sufficient background for graduates to carry on further research and higher studies.

Question: What are the employment outcomes/ career opportunities after finishing civil engineering program?
Answer: After completion of the program, graduates typically take the Professional Licensing Examination to become professional engineers. Excellent career prospects include design, project management, and research and development engineers in both the private and public sectors. Civil engineers are the dominant drivers in the development of infrastructure, and resource and environmental management of the country and its surrounding region.

Question: Who is department head of civil engineering?
Answer: The head of civil engineering program is A.Supattana Nirukkanaporn , email :
wisit@rsu.ac.th

Question: How many credits do we need to finish the civil engineering program?
Answer: 150 credits. Course structure ⇒ general education(GE) - 30 credits, Core courses(Area courses) - 114 credits, free elective - 6 credits. For more details please visit
https://www.rsuip.org/programmes/undergraduate/civil-engineering/

Design Program
The Website for design program is https://www.rsuip.org/programmes/undergraduate/design/

Question: What degree can we get from the Design program?
Answer: Bachelor of Fine Arts in Design (College of Design)

Question: How long does it take to finish the Design program?
Answer: you need to study 4 years for Design program.

Question: How much is the course fee for the Design program?
Answer: 40,000 - 70,000 per semester. For more details please go to the website.
https://www.rsuip.org/programmes/undergraduate/design/

Question: What is the course description/purpose of the Design program?
Answer: Design department course focuses on students to be different both in terms of ideas and designs. Through the design thinking process based on rationality. In which students can choose to combine courses selected from Interior Design, Fashion Design Communication Arts And Photographic department to suit your aptitudes to develop a new type of designers and entrepreneurs, who dare to think and not cling to traditional designs and can apply what they have learned in real work environments.

Question: Who is department head of the Design program?
Answer: I do not have data about it. Please contact RIC International program office at Building 11 2nd floor.

Question: What are career opportunities/ employment outcomes for the Design program?
Answer: Designers, Product Designers, entrepreneur and related Design career.

Question: What are the international and professional experiences for the Design program?
Answer: Student exchange, internship abroad, study tour and field trips, cooperative studies, professional training and workshops under collaborations with RSU's partners universities, professional associations and industries.

Question: What will students learn from the Design program?
Answer: Students will Practice the Design thinking Process, an essential skill for every profession. From design subjects in each term, learn to combine design with other sciences to create different ideas or ways of thinking. From subjects that emphasize on hands-on, laying the foundation of ideas and knowledge to be ready for the future and able to apply in real work environments and focus on being an entrepreneur.

Question: IF STUDENT WANTS TO COME, WHAT THEY SHOULD BE PREPARE?
Answer: Reasonable thinking and searching person. (need more, you can thinking about it)

Question: For other questions about Design program
Answer: Search in the website https://www.rsuip.org/programmes/undergraduate/design/

Fashion Design Program

Website for fashion design program is Website:
https://www.rsuip.org/programmes/undergraduate/fashion-design/

Question: What degree will we get from the Fashion Design program?
Answer: Bachelor of Fine Arts

Question: How long do we need to finish the Fashion Design program?
Answer: You need to study 4 years for Fashion Design Program.

Question: How much is the course fee for the Fashion Design program?
Answer: 40,000 - 70,000 Bahts per semester For more details please check
https://www.rsuip.org/programmes/undergraduate/fashion-design/

Question: What is the course description/ purpose of the Fashion Design program?
Answer: Department of fashion design aims at shaping a fashion designer to become a leader in creativity, with deep understanding of contemporary design, fully equipped with the skills required to craft intricate details. They explore innovative designs through design research and experimenting on new materials and techniques, both by hand and machine. The study also covers essential aspects of fashion ranging from high fashion, ready-to-wear, fashion trends to fashion business.

Question: What are the employment outcomes/ career opportunities after finishing the Fashion Design program?
Answer: Fashion designer, Fashion Stylist, Textile designer Retail buyer, Clothing/textile technologist, Fashion marketing or PR specialist, Fashion journalist or blogger, Fashion product manager, Fashion trend Analyst, Magazine journalist, Personal stylist shopper, Fashion show organizer, Fashion studio owner, Pattern maker, Accessories Designer, Costume Designer, Make-up artist, Retail manager / Retail buyer / Retail merchandiser, Retail merchandiser, Textile buyer, Visual merchandiser, Online merchandiser, Event manager, Jewelry designer, Public relations officer

Question: Who is department head of the Fashion Design program?
Answer: the head of fashion design program is Aj. Laddawan Sarapat , email : laddawan.s@rsu.ac.th

Question: Program coordinator for the Fashion Design program?
Answer: Program coordinator for the Fashion Design program is Khun Namkhang email: Thanyasorn.m@rsu.ac.th

Question: For other details about Fashion Design program
Answer: Search on the website https://www.rsuip.org/programmes/undergraduate/fashion-design/ or contact department head or ask RIC International Office.

Interior Design Program
The Website for interior Design program is
https://www.rsuip.org/programmes/undergraduate/interior-design/

Question: What degree will we get from the Interior Design program?
Answer: Bachelor of Fine Arts
Question: How long do we need to finish the Interior Design program?
Answer: You need to study 4 years for Interior Design program

Question: How much is the course fee for the Interior Design program?
Answer: Total course fee estimated 568,200 Bahts. For more details please check
https://www.rsuip.org/programmes/undergraduate/interior-design/

Question: What is the course description/ purpose of the Interior Design program?
Answer: Department of interior design is committed to cultivating creativity among the learners to be the driving force behind the learning and the design process as well as the operation and practice at the individual level and as part of the team. Department of interior design develops the up to date curriculum to facilitate the grooming of analytical thinking, problem solving skill and creative solutions that respond to the users and the usage of space. It also takes into consideration the role of designers in contemporary society that requires the development of knowledge for sustainable design and environmental considerations, alongside the design process.

Question: What are the employment outcomes/ career opportunities after finishing the Interior Design program?
Answer: Interior designer,Interior design consultant, Design researcher, Furniture designer, Interior product designer, Lighting designer, Event and exhibition designer, Prop designer, Set designer, Interior design stylist, Interior visualizer, Material supervisor, Project manager, Construction manager, Site supervisor, Interior contractor, Window display designer, Interior studio owner

Question: Who is department head of the Interior Design program?
Answer: department head of the Interior Design program is Mr. Waris Sinsuebpol , email : waris.s@rsu.ac.th
Question: Who is program coordinator for the Interior Design program?
Answer: program coordinator for the Interior Design program is Ms. Thanyasorn Meesomsak email: thanyasorn.m@rsu.ac.th

Question: For other details about Interior Design program
Answer: Search on the website https://www.rsuip.org/programmes/undergraduate/interior-design/ or contact department head or ask RIC International Office.

Biomedical Science Program.
The Website for Biomedical Science Program is

Question: What degree will we get from the Biomedical Science program?
Answer: Bachelor of Science (Biomedical Science); B.Sc. (Biomedical Science)

Question: How long do we need to finish the Biomedical Science program?
Answer: You need to study 4 years for the Biomedical Science program

Question: How much is the course fee for the Biomedical Science program?
Answer: 36,000 - 86,000 bahts for each semester. For more details please check
https://www.rsuip.org/programmes/undergraduate/biomedical-science/

Bilingual Education Program (Postgraduate)

After you finish study of Bilingual Education Program (Postgraduate) you will get Master of Education. You need to study 2 years . There are two intakesAugust (1st Semester), January (2nd Semester). The program fees for Bilingual Education Program (Postgraduate)
 is 320,400 Baht (2 years degree). For English Requirements IELTS 5.0 or equivalent or passed the Rangsit University English Language Proficiency Test

The course description, purpose and why you should study Bilingual Education Program (Postgraduate) is The world today is characterised by rapid change and growing interdependence among nations in all areas of human endeavours. Hence, nations need professionals in foreign affairs who can serve in governments, international organisations, non-government organisations, and international business. In Southeast Asia, there is no specialised institution which caters to this specific need. The Institute of Diplomacy and International Studies (IDIS) is designed to fill this need. The program thats designed at RSU will provide professional education in international studies covering the entire spectrum of international relations. Hence, this will be an intensive training course that will focus on practical skills (e.g. negotiation techniques, diplomatic practices, media skills, rhetoric, and languages).

After completion of the M.Ed.(Bilingual Education), students will be able to work and travel all over the world. RSU aims to produce professionals for positions of leadership and influence in foreign affairs in the international business aspect of life.
